**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-8, drawn to an optical recording/reproducing apparatus, classified in class 369, subclass 44.23.
  - II. Claims 9-12, drawn to method for adjusting the aberration in an optical disc device, classified in class 369, subclass 112.02.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are unrelated because invention II is a method, which at very least provides an optimization of the focusing bias, differing in operation, functions and effects.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

2. If **Group I** is elected, the following inventions is required under 35 U.S.C. 121:

Ia. Claims 1-4

Ib. Claims 5-8

The inventions are distinct, each from the other because of the following reasons:

Inventions Ia and Ib are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has at very least a separate utility such as discriminating sort of discs having different values of track pitch, See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

3. If **Group II** is elected, the following inventions is required under 35 U.S.C. 121:

Ic. Claims 9-10

Id. Claims 11-12

Art Unit: 2655

The inventions are distinct, each from the other because of the following reasons:

Inventions Ic and Id are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention Ic has separate utility such as correcting coma aberration. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required for Group Ic is not required for Group Id, restriction for examination purposes as indicated is proper.

A telephone call was made to Applicants representative on 04/06/2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
